ALBUQUERQUE, NEW MEXICO, MONDAY AFTERNOON, AUGUST 18, 1902

NUMBER 225

SCHWABSTRICKEN

Steel Trust Manager a Physical Wreck.

HE WILL RETIRE FROM BUSINESS.

Rock Island Train Ditched by a Wash-out in Iowa.

SHAH OF PERSIA IN LONDON.

Loretto, Pa., Aug. 18.—Charles M. Schwab, of the United States Steel corporation, has accepted the advice of his physicians and has decided to retire indefinitely from active business life. He will leave America to seek some quiet nook in a foreign clime, where not an echo of the strenuous life he has led can reach him. Dr. Golden never leaves the Schwab home and the exact nature of his patient's condition cannot be learned through him. Schwab is not confined to his bed, but spends much of his time on the wide veranda. He is always with his wife or parents, but no one else.

Schwab's destination will be kept a secret and he will do nothing but seek health until his nerves have been restored to their normal condition and his mind fully relieved of the great strain resulting from so many business cares. Mrs. Schwab said her husband would not see any person and had not been receiving visitors for several days. Mr. Schwab sat on a couch within hearing of voices. A paper was before his eyes and he exhibited no interest and made no attempt to move. Inquiry among the people of the town who have conversed with the Schwabs fully corroborated the story that he intends to retire from active business life. His friends, however, deny that if he leaves the United States Steel corporation it will not be at the dictation of any person other than himself.

Schwab Will Retire.

New York, Aug. 18.—The retirement of Charles M. Schwab from the presidency of the United States Steel corporation is now commonly accepted as determined upon, notwithstanding recent official denials and present reluctance in official quarters to confirm the report. Schwab's impaired health is the reason. It is believed that his retirement will be followed by extensive changes in the membership of the organization. It has been reported that the presidency would pass to James Gayley, first vice president. Other rumors pointed to H. C. Frick.

TRAIN DITCHED.

Rock Island Train Wrecked by Wash-out in Iowa.

Muscatine, Iowa, Aug. 18.—The El Paso limited on the Rock Island system was wrecked by a washout a mile west of Letts early this morning and five coaches and the engine were thrown into the ditch. The train carried a heavy passenger list, and many miraculous escapes from death are reported. Many are reported injured, some, it is thought, fatally. The wash-out was caused by a cloudburst.

Chicago, Aug. 18.—It is stated at the Rock Island general office that the baggage, mail, express and two chair cars of the train wrecked near Letts were ditched, but the engine and Pullmans remained on the track. According to their reports no one was seriously injured, although some were bruised.

Shah of Persia.

London, Aug. 18.—The Shah of Persia, Muzaffar el Din and his suite, who arrived at Dover yesterday, reached London today and took up his residence at Marlborough house as guests of King Edward.

Carnival at Jeffersonville.

Jeffersonville, Ind., Aug. 18.—The Elks' carnival, for which Jeffersonville has been preparing for weeks past, opened today in a blaze of glory. The city is festooned with purple and white, the Elks' colors, and the streets are thronged with people, including a liberal proportion of out-of-town visitors. The program was ushered in with a grotesque parade, the various features of which were applauded by the thousands who lined the sidewalks along the route.

Honor of Austria.

Vienna, Aug. 18.—The seventy-second birthday of Emperor Francis Joseph was celebrated today with elaborate fetes throughout the dual empire. During the forenoon the members of the foreign diplomatic corps presented at the palace telegraphic messages of congratulation from King

Edward, Emperor William, King Alfonso of Spain and others. In the capital the anniversary of the emperor's birth was never so generally observed. Public offices, stores and factories were closed, the streets were handsomely decorated and gala performances were given at the theaters. Special thanksgiving services were held in all the churches and were attended by thousands of persons.

In Custody for Perjury.

Boston, Aug. 18.—Corporal R. T. O'Brien, who was arrested at North Adams on the charge of perjury before the United States senate committee of inquiry in to the war in the Philippines, was today ordered delivered into the custody of the Washington authorities by Judge Lowell, of the United States court. O'Brien will be taken to Washington at once.

Death of Mrs. Phillips.

Yesterday morning, about 3 o'clock, at the home of her son, Dr. C. T. Phillips, corner of Roma avenue and Third street, the spirit of Mrs. Nancy Phillips passed to its Maker. She was 89 years and 16 days old and death came natural with a general breakdown caused by her advanced years.

About six months ago the husband and father died at the family home at Elm, Texas, at the ripe old age of 94 years, and since that time the mother and wife has been making her home in this city, living with her son, who is a well known physician.

A son of the deceased arrived in the city this morning and will accompany the remains to the old home in Texas, where they will be laid beside the husband in the family cemetery.

A prayer service will be held over the remains at A. Border's undertaking parlors tomorrow afternoon at 3 o'clock. The body will be shipped tomorrow night.

"Husky" King, the base ball player, who played with the Albuquerque Browns a few years ago, is now working on a railroad running into Salt Lake City. The returning Elks say he is getting along nicely.

FOR THE CONSUMPTIVES.

A Lady Physician of Chicago Wants to Establish a Sanitarium.

ALBUQUERQUE'S IDEAL CLIMATE.

Dr. May Thornton Brown, a prominent and successful physician of Chicago, is in the city and for a very important purpose.

Dr. Brown makes a specialty of consumption and comes to Albuquerque with a view to looking up a location for a first class sanitarium. She has decided that an ideal climate is found here and if suitable grounds can be secured she will build. The lady has capital and means business.

"I ask nothing from anybody," said Dr. Brown, to a Citizen reporter this afternoon. "I pay my way as I go. I find an ideal climate here and have decided that this is the place for a first class sanitarium. I have made a thorough study of consumption in its worst form and have had success in a number of cases, while in Chicago, where I had a sanitarium. If in Chicago, where nature and everything else is against the disease, I made cures, what could I do in this climate, where everything is in one's favor? My first idea was to build a chain of sanitariums in different altitudes and in different climates, where people in different stages of the disease would find the necessary requirements and my patients could make changes in residence and still be under my care, but unless something changes my mind, I will build an immense institution in Albuquerque and devote all my time to it."

Dr. Brown will go to Denver for a few days before returning to Chicago. She will come back to Albuquerque some time in December and begin operations in connection with the building of the new sanitarium.

Banker Sentenced.

Detroit, Mich., Aug. 18.—Judge Murphy, in the recorder's court, today, sentenced Frank C. Andrews, who was found guilty on Saturday of misappropriating and misapplying the funds of the wrecked City Savings bank, to fifteen years at hard labor in Jackson prison.

Dead.

Vienna, Aug. 18.—Prof. Leopold Schenk, author of "Determination of Sex," died today at Schwaberg, Syria.

James S. Duncan, the well known and popular contractor and liverman of Las Vegas, came in from the south yesterday morning and continued on north to Las Vegas.

LABOR TROUBLE

Nebraska Strikers After Union Pacific Road.

STATE MILITIA MAY BE CALLED.

Turkey Pays No Attention to Demands of Other Countries.

CANANEA POLICE OFFICERS KILLED.

North Platte, Neb., Aug. 18.—Governor Savage today announced that he does not think it necessary to call out the state militia to guard the Union Pacific property here. The governor had a conference with General Manager Dickinson, General Attorney Baldwin and other officials, and another with a committee of strikers and citizens and discussed both sides of the matter. He said he would not call out the troops until requested by the mayor and sheriff. One of the railroad officials was hung in effigy last night, but the strikers disclaim the responsibility.

Report Denied.

Omaha, Neb., Aug. 18.—Officials of the Union Pacific headquarters today deny that the management of the road has requested Governor Savage to call out the state militia to protect railroad property at North Platte.

INSOLENT TURKS.

The Effete Empire Needs a Good, Sound Whipping.

Constantinople, Aug. 18.—Non-execution by the Turkish government of agreements reached long ago on several questions affecting the interests of American citizens has led to somewhat strained relations between the United States legation and the porte. The United States minister, Leishman, informs the porte that he will not discuss other matters until the terms of settlements already agreed upon are carried out. Diplomatic critics anticipate further undue play and this may possibly lead to a sharp reminder on the part of the United States.

Killed by a Desperado.

Maricopa, Ariz., Aug. 18.—Leonard Torres and Captain Gomez, of Cananea, Mexico, special police, were fatally stabbed by friends of a desperado whom they arrested and were attempting to convey to prison. The murderers escaped.

New Jersey Labor Federation.

Trenton, N. J., Aug. 18.—The New Jersey State Federation of Labor convened in twenty-fourth annual session in the Assembly chamber today and will continue through the week. More than 200 delegates are in attendance, several trades not heretofore represented, including the glass workers and silk workers of south Jersey, having delegates present. The reports of President John A. Moffitt and Secretary B. Frank Dunphy shows gratifying progress during the past year in the way of spreading the influence and increasing the membership of the organization and in securing increased wages and reduced hours.

PROSPECTOR'S LUCK

In Dynamiting Skunks He Struck Very Rich Ore.

A tale of a prospector's luck, which borders on the marvelous, was brought into this city today from the Lordsburg district, says the El Paso News. It seems that the mining camp of Ontario, about five miles from Lordsburg, had been annoyed for some time by skunks that took up their residence in some rocks in a nearby canyon.

The nuisance becoming unbearable, one of the prospectors named Williams determined to rid the camp of them. He therefore slipped up to where the odoriferous rodents were lying and threw a stick of dynamite among them. In a few moments there was a terrific explosion and portions of skunks could be seen flying in all directions.

The next morning Williams went around to where he had thrown the dynamite and found that he had uncovered a ledge of mineral-bearing rock that was quite rich. Now the story goes that he located a claim on the lead and has sold to a man named Davis for a neat sum.

MODERN GIANT.

He is Over Ten Feet High and Will be Asked to Visit the Fair.

Edward Baupere, of Sandusky, Ohio, a French-Canadian by birth, is 30 years old, weighs 587 pounds, measures 10 feet 11 inches in height, his hands be

ing 19 inches long and his feet 24 inches long by 12 inches wide. A two-foot tape measure barely encloses his chest. Each of his trouser legs could contain the figures of two ordinary men, and there is sufficient cloth in one of his suits to outfit ten average men. A man 5 feet 10 by his side appears like a mere pigmy. "This modern giant," said a fair official this morning, "will be asked to visit the forthcoming territorial fair here in October. He would prove one of the greatest attractions and I think would make a fine manager for the base ball tournament."

ELKS ARE RETURNING.

Five Got in Last Night and More Tonight and Tomorrow.

Last night B. Ruppe, district deputy; F. A. Hubbell, D. J. Abel, William Spencer and Willard Benson Moore, well known Elks and members of the Quien Sabe marching club, who attended the Salt Lake convention, returned home last night, and all speak in the highest praises of the treatment accorded them, not only at Salt Lake, but en route to the convention. All of them brought back many souvenirs of the convention in the shape of hand-some badges secured by exchange from delegates from other lodges, and this morning Willard Benson Moore was so well pleased with his collection that he exhibited the whole lot to a party of friends at Sturges' European. A few more of the Quien Sabes will get in tonight, another batch tomorrow night and the remainder—well, they took the northern route after leaving Salt Lake and will return to the city via California and the southern route.

John Rimling is a new arrival from Sedalia, Missouri. He will locate here with his family. Mr. Rimling is a No. 1 horseshoer. He comes to take a position in Shinick's shop.

RAILROAD OFFICIALS

Of the Albuquerque Eastern Meet in This City Today.

ROAD TO BE BUILT.

The directors of the Albuquerque Eastern railroad met this morning in the office of W. B. Childers, and transacted business presumably in connection with preliminary matters toward the building of the new road. Those present were J. T. McLaughlin, J. E. Saint, Chas. W. Dudrow and W. S. Hopewell. The latter three gentlemen came down from Santa Fe especially for the meeting. Hon. W. H. Andrews, who is also a director of the Albuquerque Eastern is at Pittsburg, Pa., and could not be present. As the Santa Fe Central construction work is going along nicely and does not demand all the time and attention of the officials of the two roads it is safe to say that the building of the Albuquerque Eastern will now receive their attention, and work on that road will explain the business transacted at the meeting which was held this morning.

ALBUQUERQUE FAIR MEMORIAL

Handsomely Illustrated Number to Commemorate Festival Occasion and to

ADVERTISE THE "DUKE" CITY

The Citizen has lately concluded arrangements to issue a handsomely illustrated number, devoted to "Albuquerque and Environs," to be circulated during the Territorial Fair in October.

The work will embrace three sections—the "regular," the "general" and the "special"—enclosed in a cover designed for the season. It will be printed on a superior grade of paper and will be embellished by the highest grade of half-tone engravings.

In taking up the enterprise The Citizen has determined to spare no expense in producing a work of sterling merit, and has already increased its staff by the employment of R. Copeland Rohrabacher, a talented writer who has earned a well-deserved prominence for special newspaper and magazine work in Colorado and elsewhere in the west.

NAVAL PARADE

British Fleet Viewed by King Edward.

SLIGHT CLUE TO CHICAGO MURDERS.

Boer Generals Leave England En Route to Brussels.

BLACKSMITHS ORDER A STRIKE.

London, Aug. 18.—Naval maneuvers in the Solent today were marred by the weather. Torrents of rain and a half gale of wind drove the spectators from the sea front and it was noon instead of 10 o'clock when the royal yacht Victoria and Albert left Cowes and took King Edward through the lines of the fleet. Subsequently an array of battleships and cruisers in two columns and passed on either side of Victoria and Albert. All the war vessels manned ship as they passed the royal yacht.

CHICAGO MURDERS.

Clue Discovered by the Police to the Bartholin Crime.

Chicago, Aug. 18.—Developments today in the Bartholin-Mitchell murder mystery led the police to believe they are nearer a solution of the problem than at any time in the past month. Edward Counselman, the intimate friend of William J. Bartholin, was taken before Justice Quinn today and held for ten days in bonds of \$10,000, charged with being accessory after the fact in the murders of Minnie Mitchell and Mrs. Anne Bartholin. Counselman admitted that he met Bartholin and that Bartholin said he was in trouble over Minnie Mitchell.

BOER GENERALS.

They Leave London to Visit European Cities.

London, Aug. 18.—The Boer generals, DeWet and Delarey, started for Brussels tonight. After Saturday's experience they are not willing to again face the ordeal of a British crowd, so the generals chartered a special steamer and are keeping at the railroad station, where they will take a train and keep their port of sailing a secret. Captain O'Donnell, who served on DeWet's staff throughout the war, starts immediately for America to prepare the way for the visit of the generals. He says that altogether about 500 Americans and 500 Irishmen were with the Boer forces.

Late this afternoon the Boer generals proceeded to the docks to embark on the steamer Batavier, bound for Rotterdam. In spite of the secrecy of their movements a large crowd awaited the generals and cheered the departing visitors.

Blacksmiths Strike.

New York, Aug. 18.—A strike was ordered today by the International Brotherhood of Blacksmiths and Helpers in all shops where an advance of 10 per cent in wages was not granted. The strike affects the ship yards principally. A thousand men employed in the different yards quit work today.

NATIONAL GUARD.

Mississippi Militia to Go Into Camp on the Gulf Coast.

Biloxi, Miss., Aug. 18.—Owing to the excellent arrangements made by Adjutant General Henry and his aids, today was not far advanced before the soldiers of the national guard had their tents pitched, the Stars and Stripes fluttered from the tall staff, guns were in position and Camp Longino had become an accomplished fact. In point of numbers the encampment is the largest ever held by the state troops. It did not take long for the military routine of the camp to get in full swing and nothing appeared to have been left undone that would contribute to the comfort of the men and the success of the encampment. Drills, reviews and target practice will be regularly begun and the presence of visitors of note will lend brilliancy to the occasion.

Scientists Aid Northrops.

New Haven, Conn., Aug. 18.—Wide-spread interest attaches to the case of Mr. and Mrs. Clarence Northrop, of West Haven, which was called for trial today in the borough court. The accused are charged with manslaughter by permitting their infant daughter to receive only Christian Science treatment during her illness, which terminated fatally. The case is regarded as a test case by members of the sect

throughout the country and liberal contributions have been made to secure able counsel to defend the accused parents.

Guests of the President.

Boston Bay, Aug. 18.—David B. Henderson, speaker of the house of representatives and Representative Babcock, chairman of the republican congressional committee, will be the president's guests at dinner tonight.

Railroad Bond Issue.

New York, Aug. 18.—Official announcement was made today that the stockholders of the Union Pacific Railroad company had availed themselves of the right to subscribe for all of \$31,000,000 4 per cent bonds issued by the Oregon Short Line except about \$500,000.

Accidents at Hospital.

This morning, Louis Orear, an apprentice in the machine department of the local railway shops, was the victim of a very painful accident. He was taking down the eccentric strap on one of the big engines when it slipped and the thumb on the left hand was caught, badly crushing it. At the hospital the injury was dressed by Dr. Saylin and two pieces of broken bone removed. It will be some time before Louis can return to work.

Toney Morello, another employee of the machine department, had one of his legs badly injured by a spring slipping and striking the leg. He will be laid up on account of the accident several weeks.

GASOLINE EXPLOSION.

Four Persons Badly Hurt at a Chautauqua Assembly Display.

Peoria, Ill., Aug. 18.—Four persons were badly hurt by an explosion of gasoline during a pyrotechnical display at the old Salem Chautauqua. Col. W. F. Merriam, Williamsfield, Ill., thumb and two fingers blown off; Harry Levering, director of the Chautauqua, three fingers torn from right hand. Arthur McDavitt inhaled flame and smoke and is dying. Lyle Watkins was badly burned.

A HOT PAGE.

Ends in a Railroad Being Slugged and Held Up.

OVER IN TENDERLOIN DISTRICT.

O. E. Greenwood, a Santa Fe Pacific employe, was held up and slugged near the Acere early Sunday morning and is now lying at the Santa Fe Pacific hospital with a sore head and a badly split lip.

Ira B. Ritter, a white barber, and Andrew Dillard, a negro, are under arrest and are the men wanted. Both men have been frequent visitors in police court for minor offenses and have paid small fines.

Greenwood started out Saturday night to see the town by lamplight. Getting on a little jag he wandered down in the tenderloin district. There he met Ritter and they took few drinks together; in fact, their friendship grew so strong that Greenwood loaned Ritter a few dollars to gamble with. Greenwood grew tired of the fast life he was leading and decided to go to his hotel. He says that Ritter accompanied him part way, and when in the alley between Copper and Railroad avenues, the negro appeared on the scene, and that two men, supposed to be Ritter and Dillard, went through his pockets. In the scramble which occurred during the hold-up, the victim was struck a blow in the face, making an ugly gash on the lip. Greenwood screamed for help and the robbers ran, but were soon captured.

They were to have been tried in Judge Crawford's court this morning, but as the victim will not be able to talk before the coming Friday, the case was postponed until Saturday morning.

Ritter gave bond in the sum of \$250, and Dillard went to jail.

Greenwood is supposed to have lost about \$5.

Major and Mrs. Clark M. Carr and three children have arrived in Santa Fe from St. Louis, and are stopping at the Gildersleeve residence on upper Palace avenue. Major Carr will, during the present week, visit Valencia county, where he has some valuable landed interests, thereafter he will return to Albuquerque for a short stay and thence go to St. Louis. Mrs. Carr and children expect to remain at Santa Fe about six weeks.

The young lady, it is understood, was an Albuquerque visitor a few weeks ago, coming here from the City of Mexico and remained several days. It is learned that while here her health was not good, but she was perfectly rational.

THE MAINE

A Trial Trip of the New Battle Ship.

TRANS-MISSISSIPPI DELEGATES.

Missouri State Fair Opens Successfully at Sedalia.

PLUMBERS HOLDING CONVENTION.

New York, Aug. 18.—A host of jacks are getting everything "ship-shape" aboard the new battleship Maine, recently completed at the Cramps, in readiness for the official trial trip, which takes place this week over the marked course between Cape Ann, Mass., and Cape Porpoise, Me.

Her trial will be made to determine how well she steams, whether her machinery works smoothly and approximately what her speed is. In consequence of the success of her recent private trial the Maine is confidently expected to meet the official speed requirements. Captain Train will be president of the trial board and a number of naval officers and engineers who have closely watched her progress since her keel was laid will be aboard during the trial. The contract speed of the Maine is 18 knots an hour, the fastest of any battleship in the United States navy. That she will do better than her contract speed there is no doubt. In fact, it is expected that she will have plenty to spare along this line.

The new Maine, built to take the place of the vessel of that name which was blown up in Havana harbor a little more than four years ago, is one of the most powerful battleships in the world. She is very much more formidable than her predecessor. Larger, faster and better armored. Her principal dimensions are as follows: Length overall, 394 feet; extreme breadth, 79 feet 2 1/2 inches; mean draft, 29 feet 6 inches; full load displacement, 13,500 tons. Her armament consists of four 12-inch breech-loading rifles, sixteen 6-inch rapid-fire guns, eight 14-pounders, eight 3-pounders and eight 1-pounders and machine guns. Her Krupp belt armor extends 3 1/2 feet below and 4 feet above the water line, being 7 1/2 inches thick at the bottom and 11 inches at the top.

DELEGATES ARRIVING.

Large Attendance Assembled at the Trans-Mississippi Congress.

St. Paul, Minn., Aug. 18.—The hotel registers are filling rapidly with the names of prominent men come to attend the annual session of the Trans-Mississippi Commercial congress. The arrivals include senators, bankers, officials of the United States department of agriculture, mining experts, cattle raisers and others prominently identified with the industries of the western country. The congress will be formally opened tomorrow when the visitors will be welcome by Governor Van Sant, Mayor Smith and others, to whose addresses response will be made by John Henry Smith, of Salt Lake City, president of the organization.

Missouri State Fair Opens.

Sedalia, Mo., Aug. 18.—Sedalia is rapidly filling with visitors to the Missouri State fair, which was formally opened today to continue through the week. For thus early in the week the attendance is exceptionally large and augurs well for the financial success of the fair. All departments of the exhibition are well filled with choice exhibits, the display of live stock, agricultural products and minerals being particularly notable.

Plumbers' Convention.

Omaha, Neb., Aug. 18.—The thirtieth annual convention of the United Association of Plumbers, Gas and Steam Fitters began its sessions in Labor Temple today. The roll call by Secretary Tilden showed an attendance of more than 125 delegates, representing many parts of the United States and Canada. The sessions of the convention are expected to continue a week or longer. Chief among the subjects to be considered and acted upon is the subject for a home for aged and infirm or sick members of the organization.

Sickness of Judge Horton.

Atchison, Kan., Aug. 18.—B. F. Wagener left today for Kenosha, Wis., in a special car in response to a telegram announcing the serious illness of his law partner, Albert H. Horton, ex-chief justice of Kansas. Horton will be taken to his home at Topeka.
